

20 November 45

0830 hours.

Rec'd this A.M. a cable from W.D. saying only that 30 E.M. departing U.S. late in November under a 3 air priority for 90 days T.D, and that upon completion of duty will return to Camp Ritchie.

Give us an identification of OM-Tokyo-A.M. - but no STA on anything else. However will keep after the A.T.C. and see if we can learn something.

Following are the enclosures:

Encl. #1 - Diary

" #2 - Check sheet

" #3 - check sheet for library acquisition

" #4 - A most interesting exhibit. Item # is most peculiar inasmuch as no orders seem to be in existence and no one knows who prepared or published this chart. If we get anything else on it will let you know.
